

Guided Material Hoist (MHM) Information Sheet

Safway Services is a full-service scaffold and vertical access company. With the resources of approximately 85 branches throughout North America at your disposal, you'll receive complete turnkey service, engineering support, and safety/operations training. Our extensive, state-of-the-art fleet ensures the ideal material hoist will be onsite when you need it.

Features & Benefits:

- Variety of platform configurations ensures the efficient transport of any jobsite material
- Single and double mast installations provide numerous levels of lifting capacities
- Pendant controlled; requires no designated operator
- Advanced Variable Frequency (AVF) drive generates a smooth, quiet ride and accurate leveling
- Safety features provide a more secure environment
- Trained crews ensure quick and safe installation to help create a fully operational jobsite
- Wide opening gates facilitate the efficient handling of large, heavy material
- Lifting speed of 80 ft. per minute ensures timely vertical access on smaller structures

Applications:

- General contractors for total jobsite material handling
- Subcontractors who need exclusive vertical site access for their own tools and materials

Compliance Code:

ANSI/ASSE A10.5-2006
OSHA 1926.552

Since 1936, Safway® scaffold has been the industry standard. From Systems™ to Sectional, Tube & Clamp to SafMax®, Motorized access to QuikDeck™, Safway has a full line of products designed for any project.
